

PROJECT PROFILE:

The Residences at Charles Square - Cambridge, MA

Odor-Free Installation of Waterproofing and Roofing

Project Engineer: Simpson Gumpertz and Heger

Advantages of Odor-Free Installation of Waterproofing and Roofing Systems:

- Fully-reinforced seamless technology
- Cold fluid application eliminates use of torches & kettles, thus eliminating fire hazards
- Both self-terminating and self-flashing
- UV and chemical resistant; resists rot and root deterioration
- Unaffected by pooling water or ice
- Withstands dimensional movement

Patching of area was completed as needed, drains were reset and new curbs could be poured.

Flashing of drains, and vertical surfaces was completed.

A monolithic fully-reinforced system was applied.

This system is ideal for mechanical rooms, plazas, roofs, planters, foundations and flashings.
